

Saving on prescriptions can make a big difference. Here's how:

Long-term medicines are taken regularly for chronic conditions.*

Saving money matters. And your new prescription benefits offer new ways to save on the things that matter, like your long-term medicines. First, make a change from 30-day refills to 90-day supplies. Then, choose to fill your 90-day supply at any of our more than 9,600 CVS/pharmacy locations or with CVS/caremark Mail Service Pharmacy for the same low price. If you would like to receive your 90-day supplies through mail service, fill out the enclosed form and mail it back to the address on the mail service order form found in this welcome kit. The choice is yours, and so are the savings.

There are two easy ways to start saving with 90-day prescriptions:

- Call Customer Care toll-free at **1-866-844-9830**
- Speak to a pharmacist at one of our CVS/pharmacy locations

Short-term medications, such as antibiotics, are taken for a limited period of time.**

To save on short-term prescriptions, use one of our 68,000 network pharmacies nationwide. To find a list of network pharmacies or even more savings, visit www.caremark.com.

See the chart below for an overview of your copay costs.***
