

## **William J. Ernst, Psy.D.**

William J. Ernst, Psy.D. is a faculty member in the Doctor of Psychology Program in Clinical Psychology and the Founding Executive Director of the Center for Concussion Education and Research of Chestnut Hill College. He led a team that was awarded funding from the NCAA-DoD Mind Matters Educational Programs Challenge to develop a novel **peer concussion education program (PCEP)**. In addition, he was the co-principal investigator of a multi-site randomized controlled trial of the PCEP. Dr. Ernst's research focuses on the development and evaluation of educational interventions designed to increase concussion knowledge and symptom reporting in athletes. His research interests also include sports-related concussion, neuropsychological consultation with school personnel and performance validity testing during neuropsychological assessment. Dr. Ernst completed a postdoctoral fellowship in clinical neuropsychology at the University of Medicine and Dentistry of New Jersey/Cooper Hospital. He maintains an independent practice in clinical neuropsychology focusing on neuropsychological assessment of children and adults with various neurodevelopmental and neurological conditions including ADHD, learning disabilities and traumatic brain injury.
