Damian Lillard's heroics for the Bucks against the Pacers suddenly seem a distant memory after last night's madness. After the Knicks scored eight points in 20 seconds to floor the 76ers, Jamal Murray crashed home a buzzer-beater to complete a remarkable 20-point comeback victory for the Nuggets over the Lakers.

The Lakers' losing streak against the Nuggets now stands at 10 games, hobbled or not, the 76ers are entirely reliant on Joel Embiid, and the Cavaliers have the Magic's number.

The Celtics made the postseason for the 10th time in a row, following one of the greatest regular seasons of all

time, but all it counts for in the NBA Playoffs is a favorable draw, home-court advantage, and a huge target on their backs. Only seven No.1 overall seeds have gone on to lift the Larry O'Brien Championship Trophy this century – the most recent of those being the Warriors seven years ago.

Here's everything you need to know to watch NBA Playoffs 2024 online, plus the full schedule, TV channels and all the live stream information, with or without cable.
